

SUPPORTS

**DIGITAL
TRANSFORMATION**

Core “Manufacturing” Research Talent

Chair in Digital Engineering

- HEA Senior Academic Leadership Initiative
- Support improved gender balance at senior academic levels
- 1 of only 10 funded nationally in 2022
- Based on Digital engineering, Mechatronics and AI
- Recruiting currently

Chair in Advanced Manufacturing

- Chair in Smart Manufacturing funded through UL Bernal Project
- Competition Opening in 2023
- Strong drive to attract female and male applicants

2 X Lectureships in Mechatronics

- 2 X Lectureships in Mechatronics
- Recruiting early 2023

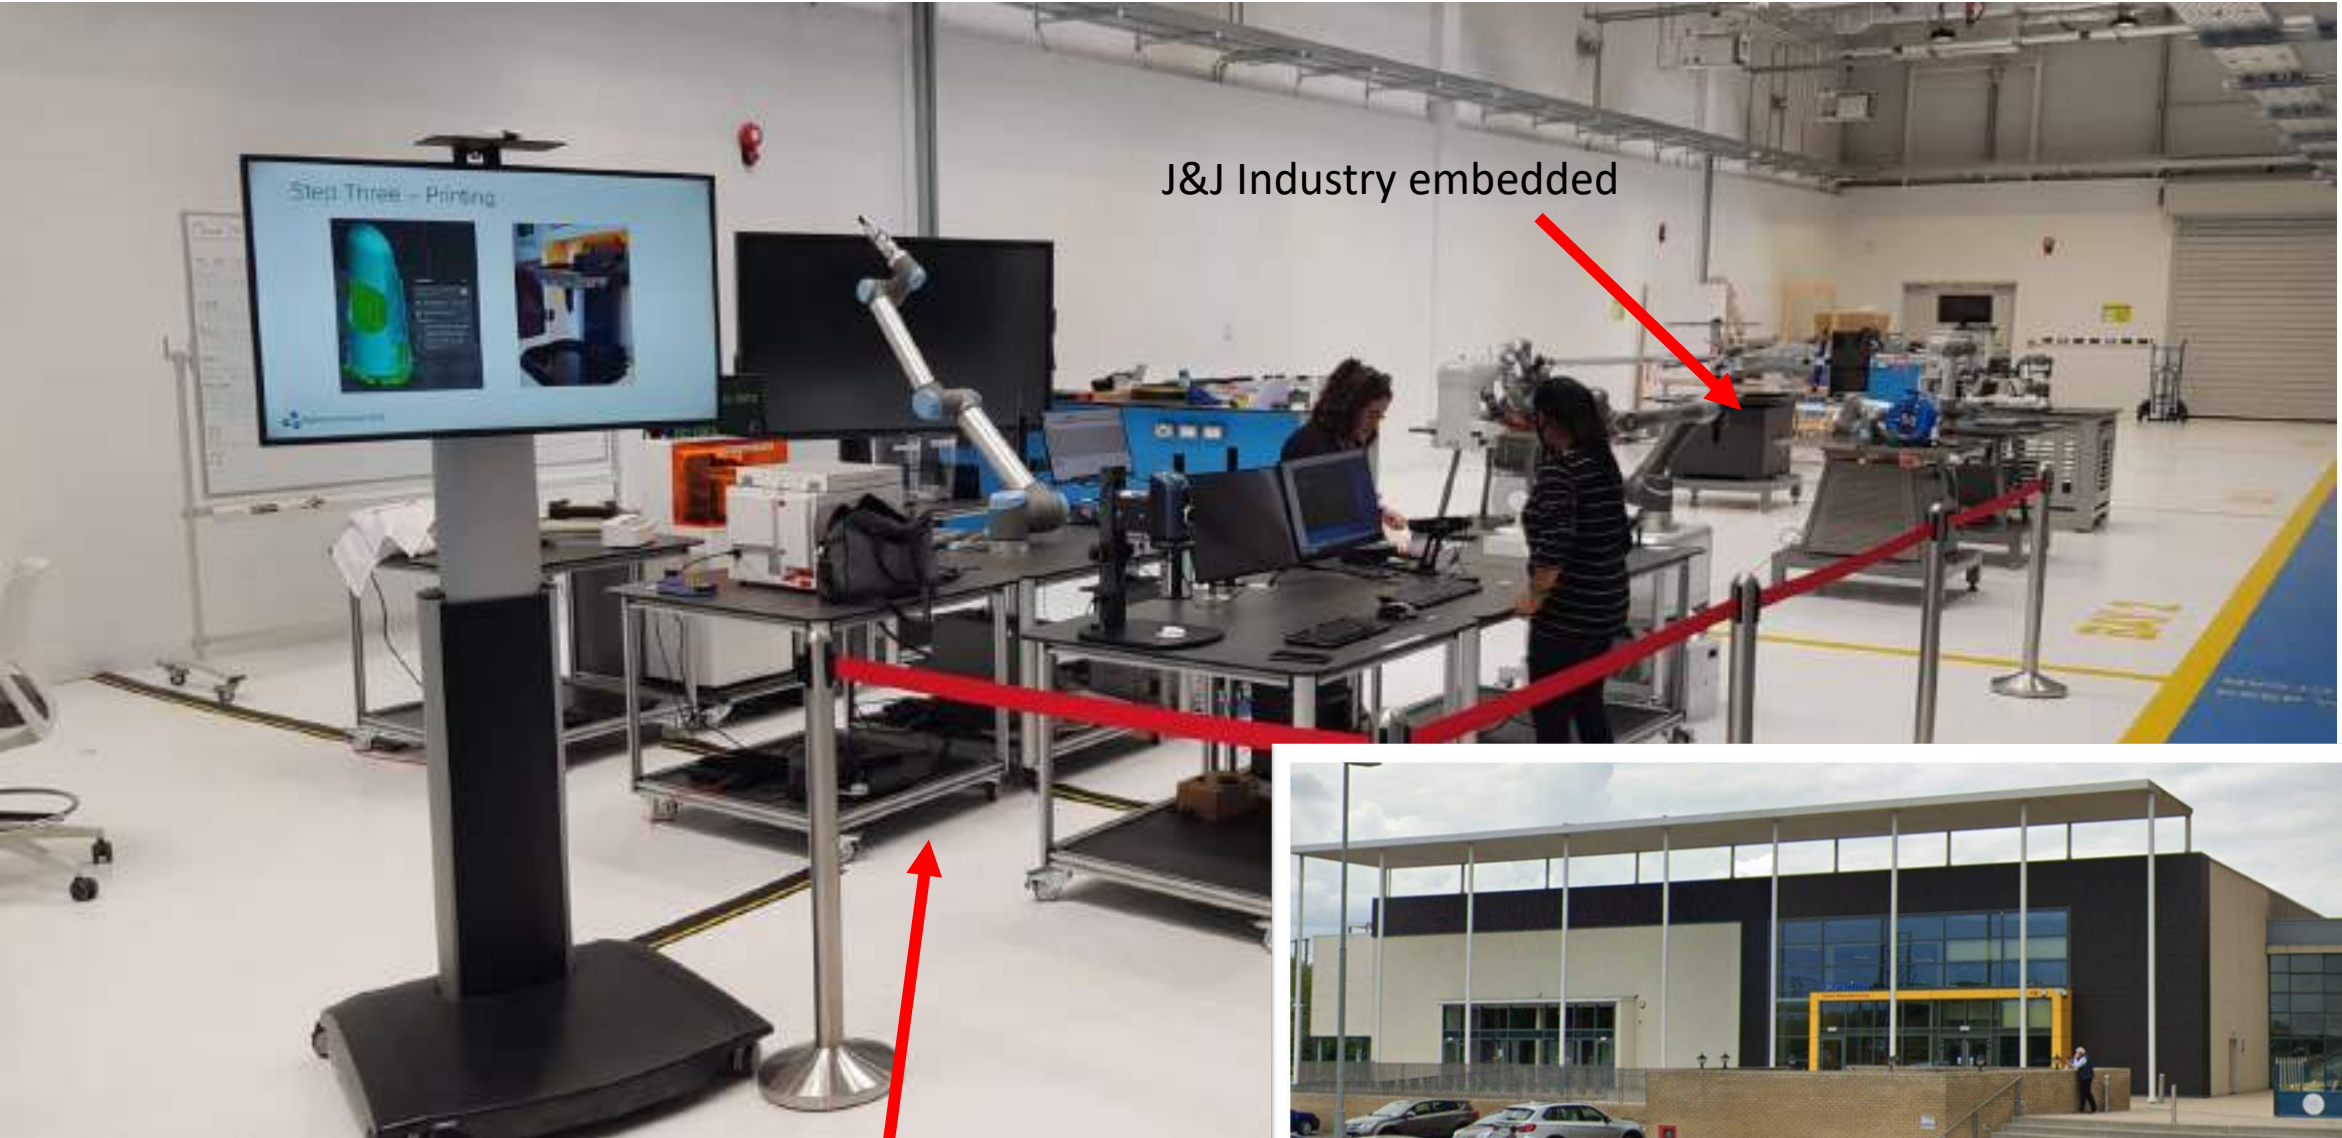

MEng Mechatronics Labs, Schrodinger building, UL

UL@Work Mechatronics Labs, IBC Block, UL (Under Construction)

Confirm Centre - Industry 4.0 Research Labs, UL Digital District

J&J Industry embedded

S&E Faculty Capital Equipment funding

MEng in Mechatronics

- Industry Experts closely involved in delivery of course
- State of the Art course
- Dedicated Lab with industry standard hardware and software modelling Industry 4.0 manufacturing systems
- Practical student work dealing with real life situations and issues
- Broad Range of knowledge and skills

Industry co-Designed **Micro Credentials** and **Professional Diplomas** can be stacked to realise an accredited Masters in Digital Futures

A Trans-National Smart Manufacturing Education Hub

IRELAND**

MEng in Mechatronics

- Taught Programme over three consecutive semesters
- 90 ECTS
- Designed for Industry 4.0
- Global / Multicultural management part of the core study
- Input from industry professionals on course design and delivery
- Core and Options
 - Software
 - Hardware

MEng in Mechatronics

- Industry Experts closely involved in delivery of course
- State of the Art course
- Dedicated Lab with industry standard hardware and software modelling Industry 4.0 manufacturing systems
- Practical student work dealing with real life situations and issues
- Broad Range of knowledge and skills

MEng in Mechatronics

| | Autumn | Spring | Summer |
|---------------|--|-------------------------------------|------------------------|
| Core | Low Cost Automation Systems | Mechatronics Project 1 | Mechatronics Project 2 |
| | Automated System Design | Digital Control | |
| | Project Management in Practice | Global Business Strategy | |
| | | Machine Vision | |
| Path A | Automation | Automation | |
| | Advanced and Emerging Manufacturing Technology | 3D CAD Modelling and Machine Design | |
| | Automation and Control | System Integration | |
| Path B | Information Technology | Information Technology | |
| | Computer Networks 1 | Web-Based Applications | |
| | C++ Programming | Real-Time Systems | |

Topics Covered

- 3D CAD & 3D Printing
- Smart Manufacturing
- PLC Programming
- Arduinos
- Sensors
- Motors
- Pneumatics
- Control Systems
- Conveyors
- Robots / Cobots
- ISA88, ISA95
